The charm and functionality of this 4 bedroom, 3 bath home is truly inviting. We love the luxurious feel of this one-story home. The abundant counter space and storage in the kitchen, which opens to your expansive and well-lit living room combine to create the perfect gathering space for your family. The galley-style hallway entrance leads you to the formal dining and through the living area you'll find the large covered back porch. Each bedroom is thoughtfully designed, to include large closets, and an additional ensuite bath. Your master suite is finished with dual walk-in closets, an oversized corner garden tub, and dual master vanities. The ability to build the Sutton floorplan on your own land is an excellent opportunity to create a dream home that is perfectly suited to your lifestyle.
